## Project title: The Garden Tower Residential Complex – Located in the Maskan Mehr Area

**Services:** Building Construction

**Location:** Rasht

### **Project description:**

This project is situated **5 kilometers south of Rasht City**, in **Gilan Province, Iran**, and is easily accessible via the **Qazvin–Rasht Highway** and **Azad University Boulevard**. Inspired by the region's **mild and humid climate**, the development adopts a **garden city concept** with a strong focus on **sustainable architecture** and **eco-friendly urban design**.

Covering an approximate land area of **1,800 square meters** and planned for **3,000 residential units**, the complex integrates all essential **recreational, sports, and commercial amenities** to provide a comprehensive lifestyle for its residents.

Designed across **seven towers**, each consisting of **15 floors**, the **Rasht Smart Garden Tower** represents one of the **pioneering projects in sustainable and intelligent residential development** in northern Iran. With a high green-space ratio and advanced smart-city features, the project aims to create a **modern, high-quality urban living environment**. Given its scale and design philosophy, the project holds significant potential to become a **key destination for sustainable urban investment** and a catalyst for expanding the city's **tourism and residential capacity**. Currently, feasibility studies are being reviewed by the Article 5 Commission obtaining the necessary **permits and approvals**.

**Planned Capacity:** 3,000 Residential Units

## Project title: kid's Land Complex

Services: Tourism

Location: Rasht

### Project description:

The kids Land Project is located in District 2 of Rasht City, at the intersection of Sardar Jangal Street and Ayatollah Ziyabari Street, covering a total area of 3,208.33 square meters.

Based on studies conducted by the project's consultant, the complex is designed as an eight-story building above a pilot floor, incorporating a range of child-focused facilities. These include a children's clinic, an indoor amusement park, and cultural and educational spaces dedicated to children's activities and development.

This project aims to create a comprehensive, child-centered urban facility that combines healthcare, recreation, and culture within a modern and accessible environment.
